

STEEL HAWK ENGINEERING SDN. BHD.
EPCC INTEGRATED ENGINEERING TURNKEY CONTRACTOR

MANAGEMENT OF FATIGUE POLICY.

As commitment to the continuous improvement of safety, health and environment to all employees contractors and visitors, we are actively working together to manage and prevent any risk associated with fatigue in **Steel Hawk Engineering Sdn Bhd**. This fatigue management is to reduce risk of accidents, injury and illness caused by performance impairment due to fatigue.

Steel Hawk Engineering Sdn Bhd Management therefore committed:

1. To ensure all employees understand and recognise that fatigued come in varied form.
2. To provide adequate opportunity for employees, contractors and visitors to have sufficient rest before commencing any work by appropriate working time management.
3. To implement controls to eliminate or reduce the risks associated as low as reasonable and practicable.
4. To ensure the employees know their rights to ceased work when fatigue poses a threat that may prevent them from working safely.
5. To provide and maintain safe and healthy working environment and system of work to all employees without risk to health and safety.
6. To develop a culture and encourage employees to take responsibility for Fatigue Management.
